

## Introducing the BRABUS Performance Line for Axopar 45

After the successful launch of the BRABUS Performance Line option on the Axopar 37 range, we are introducing the BRABUS Performance Line option also on the Axopar 45 range.

This is a much sought-after upgrade that redefines both performance and style. Building on the success of the existing BRABUS Line, this premium option delivers a dynamic combination of enhanced aesthetics and boosted performance, powered by triple Mercury Verado V10-350 engines, for the ultimate boating experience. The BRABUS Performance Line is designed to meet the demands of those who seek a superior boating experience, blending cutting-edge design with powerful performance.

At BOOT25 in Düsseldorf, we are showcasing an Axopar 45 Cross Top equipped with the BRABUS Performance Line option.

### KEY FEATURES

- **Exclusive Styling:** Sleek BRABUS graphics in the bow section of the hull and roof graphics above the helm that elevate the boat's appearance. Boat model lens stickers in black color (instead of standard silver) and new designed BRABUS badges next to the Axopar logo on the hull sides, on the side walls of the cockpit and on the dashboard.
- **Power Boost:** Triple Mercury Verado V10-350 engines.
